3. Supplemental PIT Guidance for Homeless Youth	6
3.1 Homeless Youth to Include in the PIT Count	6
3.2 Changes to PIT Count Reporting of Children and Youth	6
3.3 Strategies to Include Homeless Youth in PIT Count	7
Appendix A – DHHS-Runaway and Homeless Youth Program Grantees	8

1. PURPOSE OF THIS GUIDANCE

In 2013, HUD is emphasizing the importance of including homeless youth programs in the Housing Inventory Count (HIC) and homeless youth in the Point-in-Time (PIT) count. Youth includes persons who are less than 25 years of age. This supplemental guidance provides information on HIC and PIT reporting requirements for homeless youth and the programs that serve them, as well as strategies to ensure that all homeless children and youth who should be included in the PIT count are counted.

If you have any questions regarding the HIC or the PIT count that are not covered in this guidance or in the [2013 HIC and PIT Count Data Collection Guidance](#), please visit the Virtual Help Desk on HUD's Homelessness Resource Exchange (HRE) (<http://www.hudhre.info/helpdesk>). You should first refer to the Frequently Asked Questions (FAQs) to see if your question has been previously addressed, and if it has not, you may submit a question. To submit a question, select "HDX" for the Program/System under "Your Details," then under "Question Details," choose either HIC or PIT as the topic and subtopic.

2. SUPPLEMENTAL HIC GUIDANCE FOR YOUTH PROGRAMS

2.1 Including Homeless Youth Programs on the HIC

CoCs are reminded that beds and units included on the HIC are considered part of the CoC homeless system. ***Beds and units in the HIC must be dedicated to serving homeless persons.*** For the purposes of the HIC, a provider program with dedicated beds/units is one where 1) the primary intent of the program is to serve homeless persons, 2) the program verifies homeless status as part of its eligibility determination, and 3) the actual program clients are predominantly homeless. For additional explanation, refer or in the [2013 HIC and PIT Count Data Collection Guidance](#).

It is critical that CoCs coordinate with and include programs that provide shelter to homeless children and youth in the HIC. Specifically, CoCs should be sure to coordinate with local programs funded through the U.S. Department of Health and Human Services (HHS) Runaway and Homeless Youth (RHY) Program when planning and conducting their HIC. A list of current RHY grantees by city and state is included in Appendix A.

RHY programs provide housing to homeless youth through short-term shelter, longer-term transitional living programs, and maternity group homes, and also support youth through street outreach efforts. CoCs should identify and contact RHY-funded youth homeless providers to participate in planning and conducting the HIC and PIT counts. By engaging RHY programs in the HIC, CoCs will be able to collect more complete data on the emergency shelter and transitional housing programs that provide dedicated beds and units for homeless youth.

The table below provides a summary of how RHY-funded programs should be included in the HIC and PIT count.

Youth Provider Programs to Include in the HIC and PIT Count

HIC Provider Program Type	Provider Programs to Include	Instructions	Include PIT data on the HIC?	Include PIT data in PIT sheltered count?
Emergency Shelter	Emergency shelters for homeless youth	Include all emergency shelters for homeless youth funded by federal, state and local public and private sources	Yes	Yes
	RHY Basic Center Programs (BCP)	Include all HHS RHY-funded Basic Center Programs	Yes	Yes
Transitional Housing	Transitional housing provider programs for homeless youth	Include all transitional housing provider programs for homeless youth funded by Federal, State, and local public and private sources	Yes	Yes
	RHY Transitional Living Programs (TLP)	Include all HHS RHY-funded Transitional Living Programs	Yes	Yes
	RHY Maternity Group Homes for Pregnant and Parenting Youth (MGH)	Include all HHS RHY-funded Maternity Group Homes for Pregnant and Parenting Youth	Yes	Yes
	RHY Support System for Rural Homeless Youth (Demo TLP)	Include all HHS RHY-funded Support Systems for Rural Homeless Youth that provide dedicated beds for homeless youth	Yes	Yes
Permanent Supportive Housing	Permanent supportive housing provider programs for homeless youth	Include all permanent supportive housing programs for homeless youth funded by Federal, State and local public and private sources	Yes	No

2.2 Bed/Unit Inventory Data

Provider programs that serve youth and have inventory dedicated for homeless youth should ensure corresponding bed and unit inventory data is collected and included on the HIC in the appropriate Household Type category: Households without Children, Households with at Least One Adult and One Child, and Households with Only Children.

The following table outlines the appropriate Household Type for provider programs with dedicated beds and units for homeless youth.

Household Type for Children and Youth

Household Type	Description
Households without Children	Beds and units that are dedicated to serving homeless households that include only youth age 18 to 24.
Households with at Least One Adult and One Child	Beds and units that are dedicated to serving homeless households that include at least one youth age 18 to 24 and at least one child.
Households with Only Children	Beds and units that are dedicated to serving homeless households that include only children. This includes one-child households and multi-child households or other household configurations composed of only children (e.g., adolescent parents and their children, adolescent siblings, or other household configurations composed only of children).

Note that your CoC's HMIS may not yet have the ability to export bed information for the Households with Only Children category. Information about beds for provider programs in this category may need to be collected for each program and entered manually in HDX during the HIC/PIT submission process.

CoCs should not include beds in the HIC dedicated for children who are in foster care, are wards of the state, or who are otherwise under government custody or supervision. For provider programs that serve child-only households, but do not have dedicated beds for such households, the total number of beds may be pro-rated or distributed using one of the following methodologies:

- Divide the beds based on how the bed(s) were used on the night of the HIC. If the facility is not at full capacity on the night of the count, then extrapolate the distribution based on the pro-rated distribution of those who are served on the night of the count.
- Divide the beds based on average utilization. For example, a provider program has 20 beds. If on average one-half of the beds are used by youth in the foster care system and the other half are used by homeless youth who are not wards of the state, then include only the 10 beds for homeless youth who are not wards of the state.

3. SUPPLEMENTAL PIT GUIDANCE FOR HOMELESS YOUTH

3.1 Homeless Youth to Include in the PIT Count

CoCs should include all homeless youth in their sheltered and unsheltered PIT counts that meet the criteria described in paragraph 1 of the [Homeless Definition Final Rule](#) and who are **NOT** in foster care, wards of the state, or otherwise under government custody or supervision as of the night designated for the count.

For the sheltered count, CoCs should include all youth who meet the criteria described in paragraph 1.ii of the [Homeless Definition Final Rule](#). This includes youth who are ***“living in a supervised publicly or privately operated shelter designated to provide temporary living arrangement (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state, or local government programs for low-income individuals)”*** on the night designated for the count.

For the unsheltered count, CoCs should include all youth who meet the criteria described in paragraph 1.i of the [Homeless Definition Final Rule](#). This includes youth ***“with a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings, including a car, park, abandoned building, bus or train station, airport, or camping ground”*** on the night designated for the count.

Youth who are not in the situations defined above on the night designated for the count should not be included in the PIT count data submitted to HUD. However, youth who are homeless by another Federal definition, including youth who may be doubled-up, couch surfing, etc., on the night designated for the count, may still be counted for CoC planning purposes. CoCs should ensure the PIT count methodology is capable of discerning the specific living situation of youth encountered during the count.

3.2 Changes to PIT Count Reporting of Children and Youth

In 2013, CoCs will no longer report on unaccompanied children as a separate group in the subpopulation data. Instead, the number of unaccompanied children will be included in the population data as part of data reported on persons and households for ***households with only children***.

For ***households with at least one adult and one child***, CoCs will report the total number of households. For ***households with only children***, CoCs will report both the number of one-child households and the number of multi-child households (a new requirement for 2013) in order to discern the number of “unaccompanied children” previously reported in the PIT subpopulation counts.

In order to better understand homelessness among transition-aged youth, beginning in 2013, CoCs also will report the total number of persons by age category and household type, per below:

- Persons in households with at least one adult and one child
 - The number of children under age 18;
 - The number of adults age 18 to 24; and
 - The number of adults over age 24.
- Persons in households without children

- The number of adults age 18 to 24; and
- The number of adults over age 24.

This means that for every person in the household the CoC will need to collect either a date of birth or current age to correctly categorize persons included in the count.

3.3 Strategies to Include Homeless Youth in PIT Count

Counting sheltered and unsheltered youth, and unaccompanied youth in particular, can be challenging. Homeless youth may not use homeless residential services, and thus may not appear in local HMIS data or develop relationships with local homeless assistance providers. Unsheltered youth may hide from providers and police during the count or may be reluctant to identify themselves as homeless and unsheltered. Also, homeless youth may congregate in different areas and at different times of day than older persons experiencing homelessness. To ensure that all homeless youth are included in their PIT count, CoCs should develop specific strategies to overcome these issues, including:

- **Collaborate with local school district homeless liaisons.** CoCs should collaborate with the local school district homeless liaisons to ensure that all homeless children who are unsheltered or staying in a shelter on the night designated for the count are included in the PIT count. Since homeless liaisons use a more expansive homeless definition than the HUD definition used for the PIT count, it is important to confirm that only children and youth meeting the HUD definition are included in the PIT count.
- **Engage RHY programs and other youth shelters and service organizations.** For the sheltered count, CoCs should coordinate with providers throughout the community that offer shelter or transitional housing for youth, including HHS RHY-funded programs (see Appendix A for a complete list of RHY program grantees). Other organizations may include drop-in centers, street outreach programs, local churches, and other providers that offer services to homeless youth.
- **Recruit currently or formerly homeless youth to assist with the count.** For the unsheltered count, communities that have successful strategies for conducting counts of unsheltered youth often enlist homeless or formerly homeless teenagers and young adults to assist with the count. Prior to the count, these youth can assist in identifying where unaccompanied youth may be staying or congregating. They can also conduct interviews during the count and may have a better chance of receiving complete and accurate information.

APPENDIX A – DHHS-FAMILY & YOUTH SERVICES BUREAU: RUNAWAY AND HOMELESS YOUTH PROGRAM GRANTEES

RHY Programs:

- Basic Center Program (BCP)
- Transitional Living Program (TLP)
- Maternity Group Homes for Pregnant and Parenting Youth (MGH)
- Street Outreach Program (SOP)
