In 2018, there were 65,104 individuals who experienced literal homelessness in Michigan, including families with young children, unaccompanied youth, veterans, and seniors. What can you tell us about the issue of homelessness in your district (causes, related issues, and solutions)?

Yes, in my district area it seems as though we are only counting those we service, I know that our population is much higher in Macomb County than what is said to be. Causes that are related to this include, but not limited to, are employment, mental illness, divorce, disability, housing affordability, etc. Solutions include collaboration of entities.

**Q5**

How important do you feel it is to find solutions to housing insecurity and homelessness for your district?

**Food Banks,**  
**Public Housing Authority,**  
**Street outreach**

While Congress guides much of the funding and solutions for homelessness, Michigan's legislature has the opportunity to enact proven policy to make it easier for individuals and families to have access to safe and affordable housing. If elected, which of these potential state-level legislative solutions to preventing and ending homelessness would you support (select all that apply):

**Champion anti-poverty solutions, including expanding EITC, SNAP, CHIP, TANF, Medicare/Medicaid, SSI/SSDI, etc**  
,  
**Create and expand eviction diversion programs,**  
**Declare housing as a human right / create a homeless bill of rights**  
,  
**Expand job training programs,**  
**Increase funding for Emergency Shelter Programs,**  
**Increase minimum wage,**  
**Provide protections against discriminatory practices for those experiencing homelessness**

**Q10**

We are in the middle of an Affordable Housing crisis. The U.S. Department of Housing and Urban Development (HUD) defines Affordable Housing as a unit that a household can obtain for 30% or less of its gross income. The National Low Income Housing Coalition (NLIHC) annually reports the number of households that are 'cost burdened,' or paying more than 30% of their income on housing (2020 Out Of Reach). In 2020, NLIHC found there were only 9 counties in Michigan where a full-time worker earning minimum wage can afford to rent a 2 bedroom unit at Fair Market Rent without being cost burdened. Select the top 5 solutions you believe will increase access to affordable housing, including developing new units, expanding access to new rental units, and/or increasing access to home ownership:

- Allocate permanent, dedicated funding for Michigan's Housing and Community Development Fund**
- ,
- Change the way fair market rent and / or area median income is determined**
- ,
- Create incentives for landlords and property managers to make existing units affordable**
- ,
- Reform what criteria is used to determine borrowers' access to capital**
- ,
- Support public private partnerships for new housing developments**

**Q11**

**Q12**

COVID-19 will have a long-term impact on low-income households. The state allocated \$60 million from the CARES Act to support rental assistance and eviction diversion programming. MSHDA estimates this will only provide assistance for 20,000-25,000 households through December 2020. What additional actions would you support the state take to make sure low-income households are able to stay in their homes?

**Additional funds for eviction diversion and rental assistance**  
,  
**Eviction moratorium extensions or renewal,**  
**Rent cancellation,**  
**Sealing of eviction records related to COVID-19**

**Q13**

Please share any additional thoughts or concerns with regards to housing instability, homelessness and affordable housing availability in the state of Michigan, specifically any additional state level solutions you would be interested in championing in the state legislature.

I would be interested in a huge collaboration of corporations, community, police, mental health, MDHHS, and other states that have the same issues to discuss it, review, re-evaluate what we're doing and providing, and re-design legislation to assist/provide the opportunity to help each and every person who wants to be helped - putting more funds towards sustainability/training/housing affordability/job training.
