In 2018, there were 65,104 individuals who experienced literal homelessness in Michigan, including families with young children, unaccompanied youth, veterans, and seniors. What can you tell us about the issue of homelessness in your district (causes, related issues, and solutions)?

Some causes are the erosion of workers rights, poor paying jobs without benefits, lack of affordable housing and transportation. As a society, we need to seek a living wage for all workers, health care for all, affordable child care, transportation, and housing.

While Congress guides much of the funding and solutions for homelessness, Michigan's legislature has the opportunity to enact proven policy to make it easier for individuals and families to have access to safe and affordable housing. **Q10**

We are in the middle of an Affordable Housing crisis. The U.S. Department of Housing and Urban Development (HUD) defines Affordable Housing as a unit that a household can obtain for 30% or less of its gross income. The National Low Income Housing Coalition (NLIHC) annually reports the number of households that are 'cost burdened,' or paying more than 30% of their income on housing (2020 Out Of Reach). In 2020, NLIHC found there were only 9 counties in Michigan where a full-time worker earning minimum wage can afford to rent a 2 bedroom unit at Fair Market Rent without being cost burdened. Select the top 5 solutions you believe will increase access to affordable housing, including developing new units, expanding access to new rental units, and/or increasing access to home ownership:

- Create incentives for landlords and property managers to make existing units affordable**
- ,
- Create additional tax incentives for developers to create new units**
- ,
- Create and fund a risk mitigation fund for landlords who rent to low-income or voucher holders**
- ,
- Reform the Low Income Housing Tax Credit (LIHTC) to better serve households with greatest need**
- ,
- Support trade skills and encourage the return of builders to Michigan**

COVID-19 will have a long-term impact on low-income households. The state allocated \$60 million from the CARES Act to support rental assistance and eviction diversion programming. MSHDA estimates this will only provide assistance for 20,000-25,000 households through December 2020. What additional actions would you support the state take to make sure low-income households are able to stay in their homes?

**Additional funds for eviction diversion and rental assistance**  
,  
**Additional funding to support small landlords,**  
**Eviction moratorium extensions or renewal,**  
**Restrictions on late fees/penalties,**  
**Sealing of eviction records related to COVID-19**
