

Utilize the SOS Mobile Office!

Michigan's Secretary of State now offers mobile services that can be brought right to you

The redesigned and streamlined Mobile Office can be set up in the lobbies and shared spaces of senior centers, homeless shelters, foster-care facilities and other community organizations.

The mobile office brings the secretary of state's services to you. The mobile office will offer a variety of vital services, including processing driver's license and state ID applications, corrections and renewals; disability parking placard applications, renewals and replacements; and vehicle title and registration transactions. Currently, the office is only available in Southeast Michigan.

The mobile office can be especially helpful for clients who do not have access to reliable transportation or internet services.

To request a visit from the mobile office, head to
